What is “My number”? What will it be introduced for?

My number (individual number) is 12-digit number which every citizen receive. It will start being notify from October with person who register his/her residency-Juminhyou. My number will be used for administrative procedures related with social security, taxation, disaster response to be able to manage personal information efficiently, and recognize and confirm the personal information which is recorded on various institutions.

Three advantages

1

Enhance the convenience

This system will simplify administrative procedures.

This system will save the document (i.e. Income certificate) which is required to submit at the time of filing an application, etc.

2

Enhance the convenience of the public

This system will save time and labor needed.

This system will save time and labor needed to compare and input various types of information in administrative organs, local governments, etc., and bring better precision and accuracy to those tasks.

3

A fair and just society

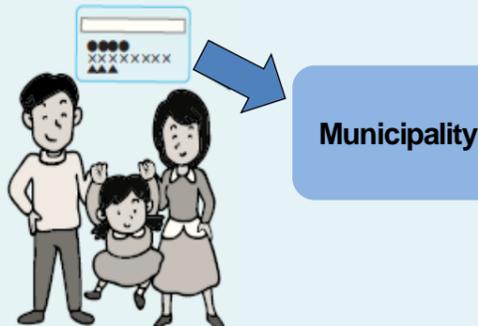

Prevention of fraudulent of receipt of subsidize, etc.

Because it will make it easier to ascertain people’s income and receipt of other administrative services, the system will prevent tax evasion and unfair receipt of benefits, and facilitate the provision of fine-tuned assistance to those who really need it.

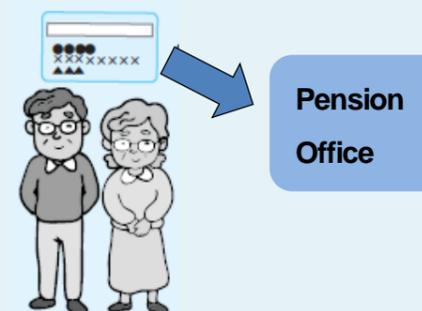

Who will use this “My number”? When will this “My number” be used?

From January of 2016, the “My Number” will be needed for administrative procedures related to social security, taxation, disaster response. Even among those, my number will be only used for administrative procedures which is designated by law or local regulation.

Every June, present “My number” to municipality when you submit the notification of current status to receive child allowance-*Jidou Teate*.

Present “My number” to pension office when you apply to receive employer’s / national pension.

Present “My number” to brokerage or insurance company, etc. so that they prepare a legal record. The brokerage record the client’s my number on the legal record, etc. and submit it to the tax office.

Financial institution

Present “My number” to your employer so that they record it on the tax withholding statement-*Gensen Choushuhyo*, etc. Your employer will record employee’s and their dependent’s “My number” on the tax withholding statement, etc. and submit it to the tax office or municipality.

Place of employment

Is it possible to use “My number” freely? Is personal information managed in safety?

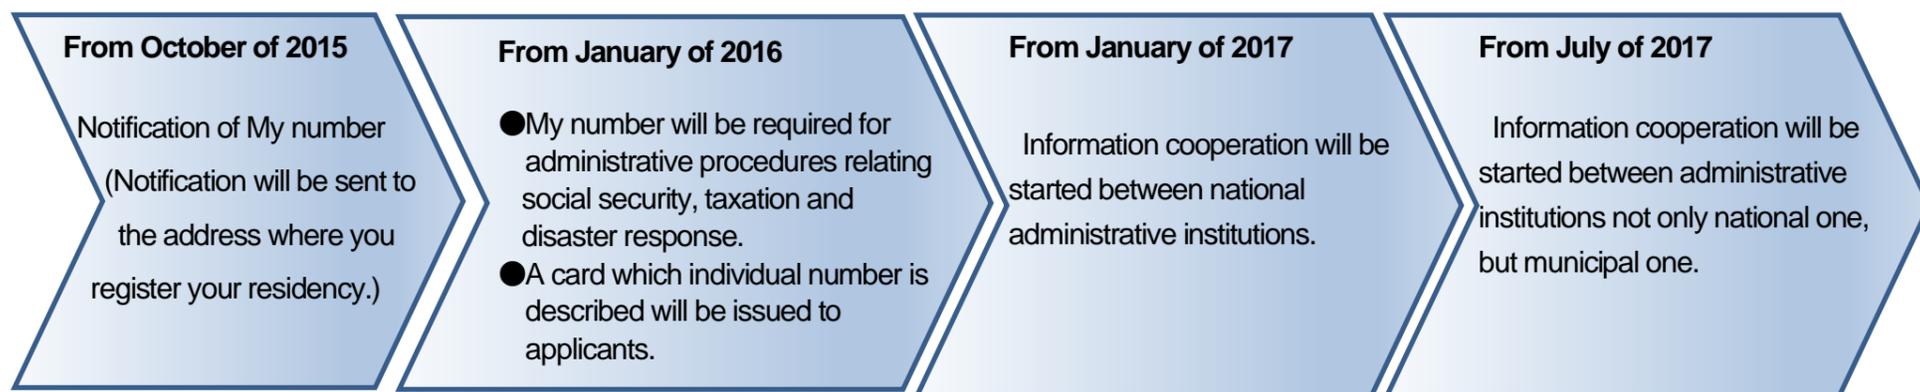

“My number” must not be provided to others irresponsibly. It should only be provided to administrative organs and other necessary for procedures in the areas of social security administration, taxation, and disaster response.

Obtaining other individual number inappropriately, providing Personal Information Files containing other’s individual number and confidential personal information are punishable act.

■Secure safety of personal information

System of My number	Part of technology
<ul style="list-style-type: none"> -Except as otherwise provided in law, it is prohibited to use, collect and keep My number, etc. -When collecting My number, it is obligated to confirm identification. -The third party observe and supervise whether or not the My number is managed properly. -Compared to before, criminal punishment is strengthen in the case that you violate a law. 	<ul style="list-style-type: none"> -Same as ever, personal information is managed by not only one institution. (i.e. Information of residence is managed by municipality, and information of tax is managed by <i>Zeimusho</i>(tax office). A certain institution does not manage all information. -Not every person can access the information. -The communication between administrative institutions is encoded.
